Subject: Email #1: Draft QAPP for the Ameren Labadie Sulfur Reduction Project

Dear Ms. Maliro,

Ken Anderson of Ameren Services has been communicating with you regarding the Ameren Labadie Sulfur Reduction Project. Ameren has retained Enviroplan Consulting, a qualified consulting company that specializes in the measurement and study of air pollution and meteorology, to furnish the monitoring stations and provide on-going comprehensive support services for the monitoring project.

Accordingly, I am pleased to submit for your review, comments and approval the draft QAPP for the Ameren Labadie Sulfur Reduction Project. The draft QAPP has been developed and organized in conformance with current MDNR-DEQ Air Pollution Control Program guidelines.

We are sending the QAPP and Appendices 1 through 8 as electronic files in WORD format to facilitate entering any comments and suggested editorial revisions directly in the text using the WORD markup/review feature. The SOPs contained in Appendix 9 are being sent in PDF format.

Due to document file sizes, this is the first of three emails we are sending you to deliver the complete draft QAPP files. File attachments to each of the three emails are as follows:

1. Email #1 file attachment: [Ameren QAPP \(Rev. 0, August 2014\).docx](#);
2. Email #2 file attachment: [Ameren Labadie QAPP, Appendix 1 to 9 \(Rev 0, August 2014\).docx](#); and
3. Email #3 file attachments: [Ameren T100 SO2 Analyzer SOP \(Rev 0, August 2014\).pdf](#); [Ameren T700 Dilution Calibrator SOP \(Rev 0, August 2014\).pdf](#); [Ameren Model 701 ZA SOP \(Rev 0, August 2014\).pdf](#); and [Ameren Met SOP \(Rev. 0, August 2014\).pdf](#)

I look forward to receiving your comments following your review of the draft QAPP. I am available by phone at 201-213-2913 (cell) or email to discuss the QAPP or provide clarifications if needed.

Sincerely,
Dave Cummings
